<b>17. Does the Institution have Management Information System ?</b>	Yes
--	-----

If yes, give a brief description and a list of modules currently operational (maximum 500 words)	<p>The management information system has been adopted by the institution since 2012. In this system a chain of the Management, the Principal, faculty members and students has been developed. In this system each teacher, called teacherincharge is allotted a group of students for supervision. Out of the group the teacherincharge identifies 4 students of post graduate class or students from undergraduate final year class. The identified students act as student mentor. Each student mentor is allotted 10 to 11 students from the group. The student mentors take special care of newly admitted students, who feel hesitant in contacting office or teachers or library etc. Students who have already passed one year in the campus are familiar with the working of the institution. It has been felt by the management and administration that students discuss their problems with student mentors more freely and friendly. After knowing the problem faced by the fellow students in the group, the student mentor tries at her</p>
--	---

level to resolve that. After the problem is resolved, student mentors inform the teacher in charge regarding the matter. In case she is unable to resolve the problem, she brings the problem in the knowledge of the teacher in charge. The teacher in charge tries to resolve the matter. Problems faced in the campus are discussed in the staff meeting scheduled on last day of the month. The Principal of the institution is a part of this meeting, therefore all issues remain in his knowledge. Such matters are brought in the knowledge of the President or Secretary of management committee from time to time. The institution has 19 teachers in all. Each teacher in charge is allotted 40 students. This year each student mentor has to take care of approximately 10 students. In this way each student enrolled in the institution is personally taken care of. Students grouped under the teacher in charge and nomination of student mentors is a part of mapping module. Development of chain to obtain information at ground level, solution of problems, making students familiar with the campus are part of management module in the system adopted by the institution. All data related to the MIS is kept computerized by the office of the Principal.

## Part B

### **CRITERION I – CURRICULAR ASPECTS**

#### **1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institution being an affiliated one follows the curriculum provided by the affiliating university. At the start of the session the academic calendar is displayed to all students on the notice board and is also made available on official website. The teacher concerned explains the topics to the students in detail before starting the chapter in classes. The faculty members provide class notes to the students during their classes. Apart from class notes students are also given copy of the ppt, OHP sheets. Students can avail the reprographic facility in the library. During practical classes the material is provided by the institution under supervision of concerned teachers. Students maintain their practical record which is regularly checked by the teacher during practical classes. All students are aware of the academic schedule well in advance so that they may prepare accordingly. Since the institution holds internal examination twice a year, the syllabus to be covered as per the term exams is disclosed to the students at the start of the session. Most of the courses run by this institution are under annual examination scheme. MA

Geography is under semester examination pattern. The students of MA geography follow the syllabus as per the syllabus provided by the affiliating university for each semester.

### 1.4 – Feedback System

#### 1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

#### 1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

## Feedback Obtained

To obtain the feedback a committee is constituted every year which reports to the IQAC. The committee prepares questionnaire forms and gets them filled by the stakeholders. The institution takes the feedback from its stakeholders like students, faculty members, alumni, parents and employers. For this purpose each questionnaire contains 15 objective questions. The answers given by the different stakeholders are analyzed by the faculty members and report is submitted to IQAC. All feedback forms contain questions related to campus, faculty, curriculum, co-curricular activities in the campus, infrastructure such as laboratories, library etc. Each question has three options ie A Excellent, B Very Good and C Satisfactory. After obtaining the answers of questions asked in the questionnaire all answers are filled up in the excel sheet by the computer operator of the college. Using excel sheet the team of the faculty members analyse the data. The feedback has been obtained from 180 students, 17 teachers, 62 alumni, 40 Parents, and 15 employers. For analysing, the feedback obtained from different stakeholder's percentage of excellent, very good and satisfactory for each question is calculated. Overall rating of the institution is obtained from the last question in the questionnaire. This year results calculated regarding the overall rating of the institution from various stakeholders were as follows:- The Students have rated 60.09 for excellent, 29.57 for good and 10.33 for satisfactory, The Faculty have rated 64.67 for excellent, 23.2 for good and 12.11 for satisfactory, The Alumni has rated 66.42 for excellent, 25.15 for good and 8.42 for satisfactory, The Parents have rated 72 for excellent, 14.66 for good and 13.33 for satisfactory, The Employers (society members) have rated 75.27 for excellent, 20.18 for good and 4.54 for satisfactory. These results have been obtained on the basis of total received answers and of students replying for particular options have been calculated. An excel sheet was prepared indicating the number of students who opted for option A or B or C for each question and calculated. On the basis of these analysis was completed. The analysis is also made available on official website. All record related to feedback is submitted to the IQAC by the committee. The institution has also uploaded student satisfaction survey report on its official website.

## CRITERION II – TEACHING- LEARNING AND EVALUATION

### 2.1 – Student Enrolment and Profile

### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

To monitor the activities of students in the campus the institute has adopted a system in the institution. In this system approximately 10 undergraduate students are mentored by one postgraduate or student of final year of graduate classes called student-mentor. Such 4 student-mentors are supervised by one teacher-in-charge. The institution has felt that the under graduate students or newly admitted students discuss their problems with the student-mentor freely or friendly, who at her level tries to solve their problems in the campus and if required, discusses with the teacher in-charge. The student-in-charges report the matter to teacher-in-charge even if the problem has been solved at her level. The students at entry level in undergraduate course feel more comfortable and at ease in discussing the matter with students-mentors rather than the teachers. Through student - mentors, the teacher in-charges monitor the teaching learning quality as well. The student admitted here feels comfortable.

Number of students enrolled in the institution	Number of fulltime teachers	Mentor : Mentee Ratio
870	18	1 : 48

## 2.4 – Teacher Profile and Quality

<a href="#">View Uploaded File</a>				

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The students are informed about the evaluation process in the beginning of the session during orientation program organized by the college administration. The academic calendar is displayed on the notice board in the very beginning and is disclosed on college official website. The students know well in advance about both the term examinations conducted on University examination pattern and practical exams. Any important instruction issued by the affiliating university is communicated to the students through announcement in the class room by teachers and is also displayed on notice boards. The result of both the term examinations are handed over to the students in parent teacher meeting. At institutional level, both the term exams are conducted on a similar pattern as adopted by the University like the class rooms and invigilators are changed in every session. In this way, the students get a feel of the main university exam and environment realizing its seriousness. Low performers identified are counselled and given special attention by the teachers and the institution organizes extra or remedial classes for them. The student's overall understanding regarding topics is measured through discussion in class room after completion of particular unit/ chapter in the class. The institution also notices the behavioral activity of the students admitted in the campus. Students' evaluation regarding behavior and over all development is observed by the teacher in-charges keeping the activities of students in their knowledge through student mentors. Regarding this process all students are well informed.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Academic calendar is prepared as per the guidelines given by the IQAC at the start of the session. The calendar prepared is displayed on the notice board and is also made available on the college website. All students are well informed regarding the activities to be performed in the campus. At the start of the session students are well aware of schedule of all activities. All the activities in the campus are organized through four houses. Students contact

their house-in-charges to participate in the activity of their interest. At the start of the session institution obtains the feedback from new students regarding their interest in different activity or sports etc. These feedback forms are made available to the house in-charges so that they can identify the students for different activities. In this process students of senior classes ie final year or PG students help the faculty members as student members in different committees. In the academic calendar dates for internal examination are displayed so students know the internal examination schedule well in advance. During the class room teaching the teachers concerned inform the students regarding the syllabus to be covered in the First and Second internal exam. Since the internal exams are conducted on University exam pattern therefore the exam pattern is described to the newly admitted students by the teachers during their classes.

## 2.6 – Student Performance and Learning Outcomes

Academic calendar is prepared as per the guidelines given by the IQAC at the start of the session. The calendar prepared is displayed on the notice board and is also made available on the college website. All students are well informed regarding the activities to be performed in the campus. At the start of the session students are well aware of schedule of all activities. All the activities in the campus are organized through four houses. Students contact their house-in-charges to participate in the activity of their interest. At the start of the session institution obtains the feedback from new students regarding their interest in different activity or sports etc. These feedback forms are made available to the house in-charges so that they can identify the students for different activities. In this process students of senior classes ie final year or PG students help the faculty members as student members in different committees. In the academic calendar dates for internal examination are displayed so students know the internal examination schedule well in advance. During the class room teaching the teachers concerned inform the students regarding the syllabus to be covered in the First and Second internal exam. Since the internal exams are conducted on University exam pattern therefore the exam pattern is described to the newly admitted students by the teachers during their classes.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The institution every year holds open election in the campus. All students elect the student union which works for their benefit under guidance of the Chief Proctor. This activity makes the students aware of the election system in India. The activity also helps them in future to understand the election process. The college has its constitution under which election is conducted. The constitution is based upon the Lingdoh committee's suggestions and State Government guidelines. The students' union is elected by voting process. The head of the institution announces various committees constituted for the smooth running of the institution. Depending upon the requirement of the committee, students are also nominated as members. Students actively participate in organizing events assigned to the committee. The institution provides an opportunity to the students to learn the working and a decision making ability is developed among them. In the campus all sports and cultural activities are conducted through four houses. Captain and vice-captain of each house select and identify the students who represent the house for an event. Captain and vice-captain take decisions under supervision of the faculty member who is in-charge of the house.

### CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

#### 6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The Principal has delegated the powers of operational autonomy and maintenance of discipline in the campus to the faculty members of the institution. For this Principal has constituted different committees for smooth working of the institution. These committees work independently under guidance of the in-charge of the committee. All decisions related to their duties are taken up by the committee. The in-charge of the committee holds a meeting with members and after discussion decisions are finalized. These decisions are discussed with the head of the institution for the smooth implementation. If finances are required, the in-charge puts up the matter with the head of the institution and

prior approval is taken. As per need of the committee, students are also nominated in each of the committee so that they may also learn about the official procedures. At the end of the session each committee submits its report to the head of the institution. The head of the institution prepares annual report of the institution and puts-up before the management committee. All faculty members actively participate in all activities organized in the campus. In some of the programmes like sports activities, cultural activities etc. all committees like discipline committee, cultural committee, sports committee, purchase committee etc. work in coordination and help each other. Decentralization of power thus helps the institution in smooth working. The management committee is of the view that before going for any major decision, an open discussion should take place so that all ifs and buts related to the issue may be discussed. In the discussion, the management is open to the views taken by its stakeholders. For example, before introducing any new course, the management discusses with faculty members the inclination of students towards the course. Like this, before making any major purchases regarding instruments, the management takes the views of faculty members.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

## 6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	The curriculum is developed and provided by the affiliating University. Some of the faculty members represent the institution in the faculty meetings (Board of Studies) organized by the University. At the start of the session each faculty member is given his/ her time table by the head of the institution. Faculty members are also provided with the college academic calendar showing the time and duration of all the activities to be held in the session. Besides teaching, teachers appointed as in-charges of various committees also take care of the activity for which they are responsible. In this way each faculty member is well aware of all activities to be organized including the schedule for completion of the curriculum. The terminal exams are conducted twice a year and the performance of the students is indicative of their efforts as well as that of the faculty.
Teaching and Learning	The management committee is providing all facilities for the improvement of teaching and learning process. The faculty members have introduced the use of audio-visual techniques in class room teaching. The library has been provided with internet connections and Delnet facility which is also a

	<p>milestone in the development of teaching and learning process. All the decisions of the institution indicate the assurance of the institute for providing quality improvements.</p>
Examination and Evaluation	<p>The institution holds two internal exams every year. These exams helps the students in understanding the way they are supposed to answer in the final examinations, conducted by the affiliating university. It also helps in improving their marks.</p>
Research and Development	<p>Three of the faculty members are registered as research guide to the affiliating university. The institution has procured Delnet connection in the library. PG students are motivated to opt for Dissertation, so that some research aptitude may be developed among these students. Concept of action research has been introduced in under graduate classes.</p>
Library, ICT and Physical Infrastructure / Instrumentation	<p>The Library of the institution has OPAC system in the campus. The library has two computers for this purpose. All issuance and refund of books are maintained by the computer. The head of the institution has constituted a library advisory committee in the campus. The library advisory committee is chaired by the Librarian and includes two faculty members, one accounts section nominee, one PG student and one UG student, both nominated by the Principal. All teachers submit their demands of text books or reference books to be procured to update the library. The library committee discusses the budget allocations and requirements and submits its report to the head of the institution for approval. For updating of the library, the committee submits its suggestions. On the recommendations of the committee, books, journals, magazines and other reading material is purchased. To make the library more user friendly, separate chambers for librarian, IT zone and reading room have been set up in the library.</p>
Human Resource Management	<p>The institution has employed faculty members as per the need. The institution prefers to appoint the faculty as per UGC qualification.</p>
Industry Interaction / Collaboration	<p>The institution has developed relations with some of the industries</p>

	and could succeed in getting the MoUs signed with nine of them. These industries shall provide summer training to the students of Commerce.
Admission of Students	After the admission process is over, a feedback is obtained from the students regarding their hobbies, activities, field of interest etc. In the same feedback they are also asked how they came to know regarding this institution, how they felt after seeking admission. The feedback obtained certainly helped us in pointing out our deficiencies during publicity and also improve our strategies for admission. It also helped in making the campus environment friendly to new students. The students who bring laurels to the institution in academics or extra-curricular activities are duly rewarded. It was the outcome of feedback forms which helped the institution in identifying these students.

6.2.2 – Implementation of e-governance in areas of operations:

E-governance area	Details
Planning and Development	After the meeting of IQAC all planning of the session is kept saved in the computer.
Administration	All administrative orders, day to day work is completed using computers in the institution. For sending information to university and other concerned, office mail is used. Library administration is maintained in software purchased by the institution.
Finance and Accounts	Tally programme is used by the office. All financial data related to purchase or payment etc. is maintained in computer by the accountant.
Student Admission and Support	All admission record is saved in computer. Admission list is prepared using Excel programme. Details of all applications are uploaded in excel sheet. Merit list is generated for the notification to the students. The list of students finally admitted in the institution is generated, displayed and remains maintained in the computer with the office of the Principal.
Examination	The institution organizes term examination in the campus twice a year. All paper setting etc. is done using computer. All records of awards of the

term examination remain saved in the computer. Awards of university practical examinations are posted directly in the website link provided by the affiliating university. Faculty members undertake the university evaluation work, the awards of the evaluated work are submitted online to the affiliating university using internet facility.

#### 7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

The classrooms are airy and well lighted and there is no requirement of tube lights in the day time. The students are advised and directed to switch off the fans and lights when not in use, thereby saving electricity.
Waste papers and dead leaves are not allowed to be burned as it creates a lot of pollution.
The institution celebrates Earth Hour and students are made aware of not using any electrical appliances during that hour so as to conserve energy.
The institution provides bus facility, thereby reducing the number of own vehicles and indirectly reducing pollution.
The students are advised to say No to Crackers at Diwali festival and are also made aware for not wasting water on the festival of Holi. They are advised to play Dry Holi.
Every year, a number of trees and plants are planted in the campus as well as in the village which the NSS unit of the institution takes care of. The students are encouraged to keep the campus clean and not to bring polythene bags in the campus. Instead, they are advised to bring cloth, paper or jute bags.

#### 7.2 – Best Practices

##### 7.2.1 – Describe at least two institutional best practices

<p><b>First Best Practice:</b> 1. Title: Imbibing a sense of responsibility in the students by the mentoring system. 2. Goal: This practice has been initiated with the aim ? To make the students feel responsible for the task undertaken. ? To develop a sense of responsibility in them. ? To inculcate a habit of working in group and develop team spirit. ? To transform them into problem solving and cooperative individuals. ? To develop a bond between all the students. 3. The Context At the initial stage, to introduce the mechanism of mentoring was a challenging task. The management was of the view that this mechanism should be introduced with a feeling of acceptance in the campus not by imposition. It was really very difficult to prepare the students in the campus for the new and unseen mentoring system. At first the students of undergraduate classes were mentally prepared to accept the immediate senior girls as their mentor. At the same time post graduate students were prepared mentally to accept the undergraduate students as their younger sisters. Once the ground was prepared it became very easy to introduce the mechanism. 4. The Practice The mentoring mechanism became a practice when all the students in the campus were divided into groups. In the first step, 5 postgraduate students were grouped under one teacher to whom they were supposed to report about the 10 undergraduate students who were grouped under them. Once the groups were declared, and students came to know to whom they were supposed to report, the mechanism was initiated. After a period of strife of about one week, students started accepting the mechanism by heart. Bharatpur being a small urban area, most of the students were known to each other, hence it became easier for us to introduce this mechanism by acceptance of the students. In this mechanism, problems of 10 undergraduate students were to be solved or these students were to be helped in the campus by one postgraduate student. Such 5 postgraduate students were to report regarding such helpful activity to the teacher concerned. Post graduate students were told to deal with undergraduate students in a friendly manner so that undergraduate students would be able to discuss</p>
---

and share their problems or difficulties in the campus with them. This mechanism was unseen even for the faculty members. After introduction of this mechanism, working of the campus became very smooth and actual problems of the students could be addressed by the faculty members. At the same time the day to day problems of new and undergraduate students were resolved. 5. Evidence of Success On introduction of this mechanism, information regarding some shy and economically weaker students was reported by postgraduate students to their teacher in-charges. The teacher in-charges called such students and came to know the factual position. The facts were brought in the knowledge of the management committee through the Principal. The management committee considered such cases sympathetically and waived off their tuition fee in the form of scholarship. This mechanism also helped in identifying the students who could not perform well in term examinations and were worried about their career. Such students were called upon by the teachers and were morally boosted and guided by them to attend remedial classes or extra classes. Teachers gave more attention to them in the class room studies. By this mechanism small day to day working problems got sorted out at students' level. The student in-charges also developed a feeling of responsibility towards their assignment. Success of the mechanism was observed by the lowering of dropout rate. 6. Problems Encountered and Resources Required After identifying the economically weaker students, financial assistance was provided to them by the management committee.

Demoralized students were boosted and guidance was provided by the faculty members on human grounds. Name of the Principal Dr. Gambhir Singh Name of the Institution Shree Agrasen Mahila PG College City: Bharatpur Pin Code: 321001 Accredited Status Cycle 1 Grade B Work Phone: 05644236294 Fax: 05644236294 Website: www. E-mail : agrasenpgcollege@gmail.com Mobile: 9785183002 Second Best Practice: 1. Title: Impact of active research, wall magazine and class room seminars on overall development of students. 2. Goal: This practice has been initiated with the aim ? To inculcate values relevant to moral, social and national needs. ? To make the students academically strong and versatile. ? To create target oriented aptitude in the students. ? To produce self-confident individuals. 3. The Context The IQAC of the institution has decided to make use of wall magazine, active research and class room seminars jointly as innovative practice in the campus. The faculty motivates students to participate in wall magazine. The students who display articles on the wall magazine are asked to give some information regarding that topic and post graduate students are supposed to give a small class room seminar presentation on that. In this way, the institution has designed an innovative practice for students, which helps in making the students aware of recent topics or activities taking place globally. They not only pick up the topic but also learn something about it, while presenting the details of the topic. Such presentation before classmates makes them self-confident. On those topics, other students are also asked to give their views which is a part of active research. The students are inspired to choose the topics related to moral, social and national needs 4. The Practice The wall magazine is maintained fortnightly in the campus. Students of all classes can participate in this actively. They submit their articles to the faculty in-charge at least one week before the display. Out of all the articles, the wall magazine committee decides which of the articles are to be displayed. Students concerned also come to know only after the articles are displayed. Then they make use of active research activity. After the article is displayed, the teacher in the class room asks the student to speak some words on the article and give more information to other students. Thereafter other students of that class are randomly asked to put their views and explain what they understand about the topic. The post graduate students who give articles remain prepared for small class room seminar. After the presentation is over, other students are asked to put their views on that particular topic. This activity has proved to be very beneficial for removing hesitation from the students. Those who give presentation gain self-confidence. This activity

encourages the students to obtain details from library and other sources which motivate them consult books and discuss the topics even outside the campus. All this efforts of the student make the academically versatile. It took some time for the students to be familiar with the activity. The students initially were persuaded to participate. After some time when they understood the process, they started participating happily and are enjoying the activity. 5. Evidence of Success The overwhelming increase in the participation of students is indicative of its success. Every week the number of submitted articles is increasing. The committee remains watchful that new students be given preference to participate. 6. Problems Encountered and Resources Required When the scheme was introduced, the committee felt great difficulty in motivating the students for active research part of this activity. But after seeing some students successfully delivering the seminar, they also gained confidence and came forward to participate. With pace of time now they anxiously wait for their articles to be displayed. ### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Our vision is to establish an educational institution of excellence in all aspects which would produce citizens who are ready to work for the betterment of the Society and the Nation. The mission of our institution is to motivate girl students from less educated areas of Rajasthan to pursue higher education by providing them maximum educational facility and to make them capable and bold enough to face the challenges of life at any later stage. The institution is providing students an atmosphere to work for the society. The institution organizes camps in villages, conducts rallies on social issues. These entire efforts make the students responsible and committed towards the society, moral and values are developed in the students. The students are made aware of the latest techniques in education and utilize them. The institution believes that all these activities lead it to produce good citizens, a citizen who has sense of responsibility towards work, society and the nation.
